Solid Rock Enterprises offers new home construction and home modification for individuals who have experienced changes in mobility or have accessibility issues. Offers consulting services to determine the right modification for your needs. Can build new home or remodel existing homes that are accessible to people with all mobility needs.

Some of the services include building ramps, installing grab bars, barrier free thresholds, wider doorways, accessible bathrooms (roll-in showers, roll under sinks, safety accessories).

Qualifications include

- VA Registered Builder # 04311
- Certified Aging in Place Specialist (CAPS)
- Certified Graduate Remodeler (CGR)
- Certified Environmental Access Consultant (CEAC)
