The Senior Behavioral Health services is a medically supervised, structured outpatient program providing behavioral health services to older adults.

The program operates Monday through Friday and focuses on enhancing the skills necessary to foster independence, self-confidence and self-reliance.

Free assessments are offered to determine the need for behavioral health services. Some of the issues addressed in the program include:

- Depression,
- Anxiety,
- Social isolation,
- Unresolved grief and loss,
- Confused thoughts,
- Changes in physical health,
- Anger or agitation problems.

Referrals to the program may be made by anyone concerned about the welfare of an individual age 50 years or older. Rides to and from the program are provided if needed.
