VisionLinkI offers a Braille Division that has the ability to produce small orders whenever necessary. This can include almost anything that's available in printed

format. We put single editions of novels and other books, school textbooks, individual bank statements, restaurant menus, hospital reports and records, museum guides, music, and some foreign language transcriptions in Braille. We are happy to provide cost quotes to anyone interested in custom braille.

Transcription can be done from a print copy or an electronic file. All work is proofread.
