At Rose Hill Health and Rehab, our philosophy of service is patient-centered and quality driven. We are dedicated to providing compassionate care in an environment that maximizes independence. Rose Hill is located in Berryville, Virginia, about 25 minutes from Winchester Medical Center and only two miles from Clarke County Park.

Rose Hill specializes in providing short-term rehabilitation care, with a team of skilled therapists who strive to help patients achieve their highest level of functional independence, so they can get home. The short-term care Rose Hill fosters continuity of care for our patients and helps create optimum rehab outcomes following discharge. In addition, for individuals requiring extended care stays, Rose Hill has been serving the long-term care needs of Berryville for 33 years.

We are known for our pet therapy with "Toby," our therapy dog who made the local

news. In addition to providing “furry” therapy, we also offer occupational, speech and physical therapy seven days. Our team specializes in complex disease management that includes stroke rehab, IV therapy, pain management and post-surgical care.

We offer two new private rooms to accommodate the specific needs of short-term rehab patients. We updated our activity and diversional rooms with modern touches and a calm look and feel. Finally, hospice patients have two rooms designed to meet their comfort needs and those of their family.

Patients and residents are able to enjoy the beautiful outdoors in our onsite courtyards or participate in a multitude of activities, such as spiritual services and musical groups. We also have group outings to places like local cinemas, the racetrack, casinos and shopping centers. Capacity is 120 residents.
