The goal of People First is to improve employment, income, health, and children's educational outcomes for the households impacted by area revitalization.

NRHA, the City, and NRHA's residents have collaborated to create People First.

A case manager is assigned to develop personal success plans for each family member, including children and seniors, that connect them with the resources they need to realize their personal self-sufficiency and upward mobility goals. These

resources include transportation, as well as economic opportunities, financial counseling, health and wellness, and more.

Please call the office for more details.
