Communicable diseases are infectious diseases that are easily transmitted from person to person. Health Department staff provide information on a variety of communicable diseases, as well as how to properly report and respond to disease outbreaks. Various diseases that can impact the area include:

- Influenza
- Lyme Disease
- MRSA
- Norovirus
- Pertussis
- Salmonella
- Sexually Transmitted Infections (STIs)
- Zika Virus

Please contact the health department if you have any questions or visit the [website](#) for more details.
